

AJAY KUMAR
2 + YEARS Experience: JAVA/J2EE

Email: - ajaymaurya7816@gmail.com
Mobile: - +91-7816052776

Objective

Seeking a position to utilize my skills and abilities in the computer science industry that offers professional growth while being resourcefull, innovative and flexible.

Experience Summary

- **2 + Years** of experience in field of software design/development, enhancement environment.
- Knowledge of designing and developing Java/J2EE applications using Test driven development and Model driven architecture.
- Good knowledge of Object Oriented Programming concepts(**OOPs**).
- Able to understand and analyze the existing source code.
- Able to work collaboratively with developers, testers and other team members in developing complex functionalities in the overall development of software product.

Technical Summary

- Mainly worked on **Java, Hibernate, and springBoot**.
- Experience on **Web Services Rest API (Spring, Spring Boot, Spring Data Jpa)**.
- Knowledge of **Oracle 11g, MySql**.
- Experience in the usage of **Eclipse IDE, STS IDE**.
- Experience in using **Apache Tomcat 9.0**.
- Experience in using **GIT** version control tool.
- Experience with **Maven, Gradle, JUnit, Log4J**.
- Knowledge of **JSP, SERVLET, JDBC**.

PROFESSIONAL EXPERIENCE:

Dates	Organization	Designation
January/2019 to Till now	Perito Cyber Management Pvt. Ltd	Software Engineer

Projects Undertaken

Project #2

Project Title

OneApp Warehouse

Client	OMLogistics LTD
Role	Software Developer
Duration	May 2020 To Till Date
Environment	Java, Spring, Spring MVC, ReST api, Eclipse, GIT and Maven springboot, Spring Boot data JPA, log4j, slf4j.
Team Size	8 (4 Dev, 2 QA, 1BA, 1 Manager)
Application Server	Tomcat-9.0
Database	Oracle 11g
Domain	SUPPLY CHAIN MANAGEMENT

Role:

- Writing Business logic using spring boot.
- Involved in Coding for Services and Spring Boot Controllers.
- Creating JPA Repository and implemented business logic for them.
- Responsible for writing spring beans and injecting the spring beans for user
- User information module and service module by using IOC.
- Analyzing the requirements and implementation of the module.

Description:

A Warehouse is storage location of Items which are purchased from Mfg. Companies and sold to End user via E-Commerce Application. It has Roles Admin and AppUser. Admin Controls all app users. Like Activate/Deactivate App user, Lock their Account etc. On Registration of App User his details will be stored in DB also official email will be sent to him with welcome letter and App Credentials. Admin can also assign extra role "ACTURATOR" to access all Spring Boot actuator rest end points.

Project #1

Project Title	Electronic Toll Collection (ETC)
Client	TollPlus

Role	Software Developer
Duration	January 2019 to March 2020
Environment	Jdk1.7,JSP2.2,Hibernate4.1.8.Final,Spring4.0,Log4j2.0
Team Size	8
Application Server	Tomcat-9.0
Database	Oracle 11g
Domain	Transportation

Responsibilities:

- Analyzing and understanding requirement of clients.
- Implemented the daily user Stories.
- Implemented Business layer.
- Coded all the POJO's required for this Project
- Also involved in coding of all Logging Activities using Log4J Tool
- Interact with Management to understand the requirements and clarifying the doubts
- Involved in daily Scrum meets and weekly review meetings

Project Description:

The Primary aim of the **Electronic Toll Collection** (ETC) system are to reduce overall toll-collection costs, provide an acceptable level of service for toll patrons, increase data quality, and reduce traffic congestion, air pollution, and fuel consumption on toll bridges. ETC has a RFID passive tag used for making toll payments directly from the customers linked ETC account. It is affixed on the windscreen of the vehicle and enables the customer to drive through toll plazas, without stopping for any toll payments

Professional Qualification

- Master of Computer Applications (**MCA**) with **73%** from **Dr. RMLU Ayodhya (U.P.)** in **2019**.

Personal details

Father's Name : Bijaymal Singh
